PRP

Platelet-Rich Plasma

Restore your hair with confidence!

PRP stimulates hair follicles to regrow hair in thinning areas, thickens hair, and prevents hair loss.

Platelet-Rich Plasma (PRP) for hair restoration involves injections of your own platelets into the vascular layer of your scalp. The first round of treatments are once a month for three months, followed by regular maintenance treatments every three months.

PRP for Hair Regrowth

- Increases blood supply to the follicle
- Triggers and maintains the growth phase
- Controls hair growth cycle
- Decreases hair loss
